装帧:Paperback

isbn:9780071443340

This one-of-a-kind interactive workbook prepares medical students for the Clinical Skills exam (CS) by simulating patient cases likely to be tested. It includes over 60

simulated practice cases in internal medicine, ob/gyn, pediatrics, psychiatry and surgery. Each case includes a brief patient background and clinical pearls while the workbook format gives students an opportunity to develop checklists for each case. Students will also find this useful for end-of-clerkship OSCE.
