著者:Johnson, Simon

出版者:McGraw-Hill

出版时间:2004-8

装帧:

isbn:9780072257410

This title helps you protect your children from dangers that lurk on the Internet. It enables you to: learn to identify the real threats - be they pedophiles, cyber-stalkers, hackers, spyware, viruses, or adware - and formulate an effective protection plan; and choose the best software for your needs and your budget from the book's independent

review of firewalls, web filters, anti-virus products, and more. Plus, a companion Web site hosted by the author includes updated data and information. Get free eTrust EZ Antivirus Software for one year with purchase of this book.
