isbn:9780071448758

This is an insider's guide that provides the information you need to impress on the wards and succeed in the clerkship! This is the only student-to-student, step-by-step guide to clerkship success. Features of this guide include: hundreds of recently tested high-yield topics from shelf exams and the USMLE Step 2 Exam; wards, and typical scenario boxes for last-minute review; insider tips for outstanding performance on the wards and exams; 'Classifieds' that do the research for you, featuring high-yield websites and top extracurricular opportunities and scholarships. Bonus: pocket-sized tear-out cards with essential wards information! Online reviews of the first edition: 'All my attendings and residents during my medicine clerkship commented that my fund of knowledge was excellent. Everyone gave me honors, and it was literally all because of this book ...Get This Book'. '...Highly distilled, has quick easy-to-read facts/pearls, and leaves out the crud. I lost mine but I am constantly wanting to go back and review it. I may just buy it again, even though I am done with my Medicine rotation and I am pursuing Surgery'. 'Gives you the key facts about many diseases ...information that will help you answer questions during rounds and on exams ...It's easy to get through, which is important since there's so much to learn during the Internal Medicine rotation (and not enough time!)'. 'Perfect for MSIII's starting their IM Clerkship; it is also great for Step 2 review and the Medicine Shelf'.
