Every medical student knows that studying for Step 1 of the USMLE (United States Medical Licensing Examination) is the most difficult of all exams. Students need options and quick tools. With more than 200 portable and concise flash cards, this excellent review resource is the perfect option and quick review for this exam. Simple to use, students read the featured clinical case on one side and test their disease knowledge by answering to the patient's symptoms presented in each case. Flipping over the card, the answers to the correct diagnosis, a review of the basic science, clinical manifestations, laboratory findings, diagnosis, treatment and prevention of the disorder are on the other side. The most innovative format by the most trusted medical review brand in medicine, this new addition to the LANGE brand of medical education resources, is rock solid, portable, and fun.
