Paleolithic sites from one million years ago, Neolithic sites with extraordinary jade and ceramic artifacts, excavated tombs and palaces of the Shang and Zhou dynasties—all

these are part of the archaeological riches of China. This magnificent book surveys China's archaeological remains and in the process rewrites the early history of the world's most enduring civilization. Eminent scholars from China and America show how archaeological evidence establishes that Chinese culture did not spread from a single central area, as was long assumed, but emerged out of geographically diverse, interacting Neolithic cultures. Taking us to the great archaeological finds of the past hundred years—tombs, temples, palaces, cities—they shed new light on many aspects of Chinese life. With a wealth of fascinating detail and hundreds of reproductions of archaeological discoveries, including very recent ones, this book is an invaluable resource for anyone interested in Chinese antiquity and Chinese views

评论

内容无二，但逻辑和紧凑不如li feng的那本social and cultural history。不过这有可能是一个因为怨念书太重太厚而产生的有失偏颇的评价。

内容翔实，图片和印刷很精美。重要的是集各家之言，入门好书。
