A Hindi film star . . . an American missionary . . . twins separated at birth . . . a dwarf chauffeur . . . a serial killer . . . all are on a collision course. In the tradition of A Prayer for Owen Meany, Irving's characters transcend nationality. They are misfits--coming from everywhere, belonging nowhere. Set almost entirely in India, this is John Irving's most ambitious novel and a major publishing event.

3.29-4.20| amazing how he could blend his favorite elements in a slightly different way in every novel and it comes out fresh and enjoyable has a distinct voice that somehow makes different audio book narrators sound similar the entire point about Irving is that he writes overwrought and verbose stories that soothe and at times surprise you

渐入佳境的一本欧文，尤其是居然还带悬疑、罪案色彩，读着很抓人呢。
