Generations of children have sleepily snuggled under their blankets at bedtime and listened to the whimsical tales of Winnie-the-Pooh and his friends. This charming board book commemorates that special time at the end of the day with time-honored passages and verses from the original works by A.A. Milne, all selected for their soothing bedtime themes. Each spread features Ernest H. Shepard's beloved drawings in full color. Sweetly designed with gold edges, this treasure of a book is an ideal way to say good night to the littlest lovers of Pooh.
