

Human Anatomy & Physiology, Sixth Edition

[Human Anatomy & Physiology, Sixth Edition_下载链接1_](#)

著者:Elaine Nicpon Marieb

出版者:Benjamin-Cummings Publishing Company

出版时间:2003-05-09

装帧:Hardcover

isbn:9780805354621

Elaine Marieb once again brings her dedicated attention to detail and unwavering commitment to quality to the Sixth Edition of her best-selling Human Anatomy and Physiology textbook. Each page of this new edition has been carefully reviewed and

edited to give readers the most clear and concise explanations of difficult topics. The enhanced art program helps even the least-prepared readers understand key concepts, and the restructured and expanded media package offers readers convenient access to more animations, tutorials, and online resources than ever before. Cutting-edge research areas such as DNA fingerprinting and stem cell research have been added. For college instructors, students, and readers interested in human anatomy and physiology. </P>
