There's no better way to learn to author professional, interactive DVDs than this self-paced, Apple-certified guide to DVD Studio Pro 3. This revision of the best-selling first edition is fully updated to take advantage of the software's new transition styles, superb HD-to-MPEG-2 encoding, and brand-new graphical view. Master trainers Adrian

Ramseier and Martin Sitter begin with the basics of DVD authoring and--in a new advanced section--take you all the way through DVD Studio Pro's most powerful features. Each chapter presents a complete lesson in an aspect of DVD creation and finishing, with hands-on projects for you to complete as you go. After learning how to storyboard your DVD and plan its interactions, you'll set chapter markers, build still and motion menus, and add subtitles and Web links. You'll also learn sophisticated techniques for juggling multiple audio tracks and camera angles, creating smart buttons and custom transitions, and scripting. Finally, you'll encode professional-quality audio and video and build, format, and burn the DVD. By the end of the book, you'll have created four full DVDs, each geared to a different audience and using different navigation schemes and effects.
