Upon reading, Oh, For a Second There Radiohead Helped Me To Lose Myself you will want to seize the day like no other time in your life. Perhaps calling a lost love, relishing a moment in time, or finally saying the things you never really said before. This collection of poetry brings together life, death, love, tragedy, hatred, pain, laughter, and so much more. You will hear about the Beatles, Radiohead, New York Yankees, shuffleboard tables, and a mysterious goddess always present. The words will invade your soul causing you to pause and see the world in a different light. These are not the words of some scholarly poet who hides his meanings behind metaphors and symbolism, but quite the opposite. These poems give you the keys for a midnight joy ride in a convertible with the beauty of words riding shotgun.
