To celebrate the complicated mother-daughter relationship, Lisa Delman started the Letters from the Heart Project(tm). An invitation for women to open their hearts by writing a letter to their mothers, the project received nearly a thousand letters from around the world.

Here, for the first time, is a collection of the most powerful and inspiring messages. In their own words, daughters share the stories and feelings they have kept inside for so long--as they recognize their mothers' sacrifices, forgive past hurts, overcome grief, and above all, honor the most important relationship of their lives.
