著者:Patricia Hill Collins

出版者:Routledge

出版时间:2000-2

装帧:Paperback

isbn:9780415924849

In spite of the double burden of racial and gender discrimination, African-American women have developed a rich intellectual tradition that is not widely known. In "Black Feminist Thought," Patricia Hill Collins explores the words and ideas of Black feminist intellectuals, as well as those African-American women outside academe. She provides an interpretive framework for the work of such prominent Black feminist thinkers as Angela Davis, Bell Hooks, Alice Walker, and Audre Lorde. The result is a superbly crafted book that provides the first synthetic overview of Black feminist thought.

评论

清晰翔实。上课用了Controlling Image一章

好難懂。。。。。。

Intersectionality, controlling images, black sisterhood and the power of eroticism, black wisdom, and the political economy of knowledge production

so informative, it’s a guide book to those new to this topic. It made me feel like black women lived in a miserable world but they fought always. It’s interesting I will be back later
