The future belongs to a different kind of person with a different kind of mind: artists, inventors, storytellers-creative and holistic "right-brain" thinkers whose abilities mark

the fault line between who gets ahead and who doesn't. Drawing on research from around the world, Pink outlines the six fundamentally human abilities that are absolute essentials for professional success and personal fulfillment-and reveals how to master them. A Whole New Mind takes readers to a daring new place, and a provocative and necessary new way of thinking about a future that's already here.

在美帝读的第一本书，深受启发。所以根据书中的观点，不管GIS发展得多快，始终无法取代人文在地理学中的地位。不过觉得未来世界不该是纯粹的logical mind 或是 intuitive mind，感性为主结合理性才是王道。

This is a very interesting book and easy read. It has been a while since I finished reading it. What I remember is that as a right-brainer, I feel pretty good after reading this, expecially the party he talked about drawing things.
