Backwards is the true story of one big firm trial lawyer's after death face-to-face communication with God/Source about the mysteries of life and death. Backwards shatters the age-old belief that we are mere humans, that fate determines our destinies, and that a task master God demands our obedience and worship. Nanci L. Danison, JD, brings the credibility of a trial lawyer trained to evaluate evidence to her account of the answers to our most pressing spiritual questions: who is God? Who am I? What is the purpose of life? Why am I here? What happens when we die? And how should I live my life here on Earth? She offers a "life plan" from the afterlife that originates in and resonates with our true spiritual nature, and provides step-by-step guidance on how to access and develop our Source-like traits in order to bring peace and happiness to our own lives and our planet.

作者介绍:

Nanci L. Danison is a health lawyer in Ohio, having been in practice for 32 years, first with a prestigious, Midwestern, 270-attorney regional law firm, and then as a solo practitioner. She graduated from Morris Harvey College with a BA in Psychology and a BS in Biology. Her Doctorate in Jurisprudence is from The Ohio State University College of Law. Ms. Danison was recently recognized as one of "Ohio's Top Lawyers 2009" in Columbus CEO Magazine.

Prior to 1994, Nanci devoted her attention to developing a national reputation in the fields of Medicare fraud defense and general health law; served on the Boards of Directors of the National Kidney Foundation of Ohio, Inc. and the Gestalt Institute of Ohio; and represented the local Bar Association on TV interview segments on the Noon News for several years.

Nanci continues to practice law, but now writes books detailing her memories of an extensive afterlife experience following her death in March 1994. After that experience, Nanci left the security of her law firm and set up her own firm, earned her private pilot's license, and became a licensed private detective. She continued her community service on the Boards of Directors of The Columbus Cancer Clinic and of National Church Residences.

Her beyond death experience provided Nanci with the unique opportunity to view human life from the perspective of one who has transformed into a Being of Light, like the Beings of Light other near-death experiencers encounter. Nanci learned how to consciously manifest reality, hold multiple simultaneous levels of self-awareness, access Universal Knowledge on a wide variety of subjects, recognize and experience unconditional love, apply self-healing techniques, and utilize many other abilities natural to us all in our spiritual state. During her afterlife experience, she used access to Universal Knowledge to view the history of planet Earth and how religion developed and has been woven into the fabric of human evolution. Just at the moment when Nanci was to merge fully and finally into the Source/God, she decided to return to her body in order to bring back messages of hope and love, which are contained in her books and CDs. An extensive summary of Nanci's beyond death experience appears on the website for the NDE Research Foundation.
