Karen Salmansohn knows that men are just larger, hairier boys, with more expensive toys. Author of *How to Make Your Man Behave in 21 Days or Less*, *Using the Secrets of Professional Dog Trainers* and *Even God Is Single*, she now shows women how to gain the upper hand in any relationship.

Illustrated with glee by Gary Baseman, *I Don't Need to Have Children, I Date Them* is essential humor for contemporary women. First, it proves the similarity between big boys and little boys. Consider: Both share a major breast fixation. Both have trouble dressing themselves. Both think *The Three Stooges* are funny. And both love to be told, You are . . . sooooo big! But this is a reason to celebrate, not fret; once you master a little child psychology, you can fix any boo-boos in your relationship. It's all a matter of nifty tricks, like Food and rest can solve most problems and Never ask questions your boy can reject.

Because boys will be boys. Even when they're grown men.
