出版时间:1998-5-1

装帧:Paperback

isbn:9780226439594

The "Meno", one of the most widely read of the Platonic dialogues, is seen afresh in this original interpretation that explores the dialogue as a theatrical presentation. Just as Socrates's listeners would have questioned and examined their own thinking in response to the presentation, so, Klein shows, should modern readers become involved in the drama of the dialogue. Klein offers a line-by-line commentary on the text of the "Meno" itself that animates the characters and conversation and carefully probes each significant turn of the argument.

对数理逻辑的要求不低。。

the weirdest thing about Klein's works is that he gives all these insightful observations but I always fail to see a coherent whole after going through all the trouble.....
