This book provides a thorough introduction to the writing system of ancient Egypt and

the language of hieroglyphic texts. It is designed as a textbook for university and college classes, and is also suitable for individuals learning ancient Egyptian on their own. It contains 26 lessons, exercises (with answers), a list of hieroglyphic signs, and a dictionary. It also includes a series of 25 essays on the most important aspects of ancient Egyptian history, society, religion and literature. The combination of grammar lessons and cultural essays allows users not only to read hieroglyphic texts but also to understand them. The book gives readers the foundation they need to understand the texts on monuments and to read the great works of ancient Egyptian literature in the original. It can also serve as a complete grammatical description of the classical language of ancient Egypt for specialists in linguistics and other related fields.
