Globalization Has Triumphed, But Can We Save the Poor?

For most people except the world's very richest, globalization is failing catastrophically. If we don't act, its failure will lead to a global upheaval worse than any in human history. But there's another, better path. Isaak shows how a new globalization can give the poor a powerful stake, both here and abroad. Isaak's ideas can lead toward a more stable, peaceful world, in which we can all build our futures; rich and poor alike.
