In his classic best-sellers, O'Rourke has reported from the front lines of world history, braving the bad traffic, weak drinks, and less than stellar golfing of countless hot spots of war, poverty, and repression. Now with his latest collection, *Peace Kills*, P.J. casts his ever-shrewd and mordant eye on America's latest adventures in warfare. Imperialism has never been more fun. To unravel the mysteries of war, O'Rourke first visits Kosovo, where "NATO tried to start World War III without hurting anyone." Talking to KLA veterans, Albanian refugees, and peacekeepers doing their best impression of Santa Claus, he confronts the paradox of "the war that war-haters love to love." P.J. also tackles the Middle East, a region he finds as confusing as the algebra they invented. He travels from Egypt, "the cradle of tourism," to Israel and to Kuwait, where he witnesses citizens enjoying their newfound freedoms-namely, to shop, eat, and sit around a lot. *Peace Kills* is P.J. O'Rourke at his most incisive and relevant-an eye-opening look at a world much changed since he declared in his number-one national best-seller *Give War a Chance* that the most troubling aspect of war is sometimes peace itself.
