Over the last 20 years London-based design studio Stylorouge have built up an enthusiastic following for their memorable, successful and often groundbreaking visual campaigns. Flitting between music, video direction, exhibitions and film poster design no designer can claim to have influenced the look of the modern record sleeve more than creative mastermind Rob O’Connor. And Delicious provides the attractive evidence: From Blur to Trainspotting the volume is a highly visual celebration of Stylorouge’s lasting influence on the music and design community.
