著者:David Dunn

出版者:Earth Ear

出版时间:1999-09-01

装帧:Paperback

isbn:9780945401032

This book of short essays, each accompanied by a track on the enclosed CD, introduces the universal qualities of soundmaking and listening. Wide-ranging and accessible, themes include biology, personal reflection, deep ecology musings and social context; Dunn's sudden kernels of sythesis and insight show how sound offers connection with nature, and ourselves, in profoundly direct ways.
