A magnificent collection of plays by Cocteau, this set includes *Orpheus*, *Oedipus Rex*, and a preposterous execution of *Knights Of The Round Table*. Most outstanding is the surreal *Eiffel Tower*, in which inanimate objects possess mortal properties, and subsequently performing a play within a play. More comprehensive than what he put to film, nevertheless Cocteau writes in a minimalist mark that makes this book a fast yet enjoyable read. Also check out the novels *Les Enfant Terrible* and *Opium*.

作者介绍:

Jean Maurice Eugène Clément Cocteau (5 July 1889 – 11 October 1963) was a French poet, novelist, dramatist, designer, boxing manager, playwright and filmmaker. Along with other Surrealists of his generation (Jean Anouilh and René Char for example) Cocteau grappled with the "algebra" of verbal codes old and new, *mise en scène* language and technologies of modernism to create a paradox: a classical avant-garde.
