[Financial Engineering\\_ 下载链接1](#)

著者:Lawrence Galitz

出版者:McGraw-Hill

出版时间:1995-02-01

装帧:Hardcover

isbn:9780786303625

Written with a clear and concise style, this book provides a solid foundation of theory and a clear demonstration of effective practice. It also: covers the tools of financial engineering; defines each instrument and describes the markets in which they are traded; explains how each product is priced and hedged.
