This strikingly beautiful book-the first to focus on Degas` late work-presents a new and definitive view of his last decades. Degas played an integral role in reshaping the visual arts at the turn of the century, says Richard Kendall. The artist`s remarkable drawings, pastels, oil paintings, and sculptures involve startling explorations of color, unexpected

combinations of technique and media, and a radical reexamination of the human physique.

爱不够的Degas and his ballet paintings

四星半，此书不仅印刷非常精良，而且纸张摸起来感觉特别棒。同时内容分的特别好，

和其它画家的相似作品进行一系列对比，能够比较各自的优劣。特别喜欢看他画的芭蕾舞女，姿态特别优美。他好爱画女生梳头，果然是直男品味。
