Hailed as an exceptional storyteller, New York Times bestselling author Amanda Quick unveils another spectacular romance, a tantalizing tale of a legendary knight, a headstrong lady, and a daring quest for a dazzling crystal...

Mystique

Lady Alice approached the fearsome Warrior who had swept into Lingwood Manor like a storm. Dark and forbidding, with hair as black as midnight and eyes of molten amber, Hugh the Relentless seemed aptly named. Yet to Alice, adept at driving off suitors and handling her insufferable relatives, Sir Hugh was not someone to dread, but the answer to her dreams.

He had come for the mysterious green crystal, and would be greatly displeased to learn that it was no longer in her possession. But Alice was certain Sir Hugh could be coaxed into a deal that would benefit them both. In return for a dowry large enough to free Alice and her brother from the grasp of their conniving uncle, she would lend her powers of detection to Sir Hugh's knightly skills and together they would recover his treasured stone.

With a tongue as sharp as a dagger, the flame-haired Alice filled Hugh with fury...and a growing fascination. He accepted her terms, with one alteration: Alice must agree to a temporary betrothal and spend the winter in Hugh's great stone fortress, Scarcliffe Keep.

The bargain is struck and the adventure begins. But Sir Hugh's lifelong enemy is plotting against them, stirring up a whirlwind of treachery that threatens their fragile alliance.
