There has never been another period of time to compare with the last 100 years. From the Auto Age to the Computer Age, from Lucky Lindy to a man walking on the moon, our world has been an endless wellspring of unparalleled drama. Using their trademark brilliant photography and informative writing, the editors of Life have assembled a fascinating, engrossing volume that captures the happenings and the characters who have fleshed out this saga, names that will live through the ages: FDR and JFK, the Babe and Elvis, Einstein and Martin Luther King. And, of course, the likes of Hitler and Osama Bin Laden. This is a volume certain to entertain today and for generations to come.
