This is an intimate and exceptionally candid memoir of the reclusive superstar Marlon Brando and a portrait of his decades-long friendship with the author, George Englund.</p>

Since bellowing and blustering his way into the spotlight with A Streetcar Named Desire, Marlon Brando has been one of the most revered performers in the world. He was also incredibly reclusive, having shied away from the spotlight for decades. Marlon Brando, written by Brando's close friend George Englund, offers an intimate glimpse into the life and death of the amazing theatrical legend and a portrait of the friendship the two men shared.</p>

This book is one of the most compelling inside views of an epic friendship between two dynamic, eloquent men that has ever been written. It is as unique as Brando was. The author wanted to write the book that Brando deserved -- one that would do him justice and portray him as he really was. Marlon Brando honors Brando's memory and paints a portrait of the true man behind the legend.</p>
