Written from a European perspective, this text offers coverage of all the key elements of international economics: trade, money and finance. A firm emphasis is placed on ensuring that students understand how the theory relates to real world examples, providing undergraduate students with everything they need to understand this course. Empirical and Political detail is given close attention. International Economics contains 32 chapters split into 2 parts with Part One covering International Trade and Part Two covering International Money. This text is supported by an Online Resource Centre that includes a comprehensive study guide to assist students in reinforcing what they have learnt and preparing for exams.
