This reissue of an American philosophical classic includes a new preface by Cavell, in which he discusses the work's reception and influence. The work fosters a fascinating relationship between philosophy and literature both by augmenting his philosophical discussions with examples from literature and by applying philosophical theories to literary texts. Cavell also succeeds in drawing some very important parallels between the British analytic tradition and the continental tradition, by comparing scepticism as understood in Descartes, Hume, and Kant with philosophy of language as practiced by Wittgenstein and Austin.

## 评论

啰嗦的让人感到痛苦~核心的问题都在第一部分讲Criteria的部分。

-----  
“The philosopher feels that he must say and think beyond these conditions; he wants to speak without the commitments speech exacts” (215).

-----  
不确定他的LW是不是真的LW，但我倒希望真的LW是他的LW。

-----  
来世希望能和Cavell一样本科学艺术，博士读哲学~

-----  
我尽力了但是真的看不懂
