<P style="MARGIN: 0in 0in 0pt" soNormal> The only retailing book that exclusively focuses on the fashion segment of the retailing industry, its complete coverage includes the author's personal experience, in-depth interviews with industry

professionals, and a wealth of pertinent photographs, exposing fashion retailing as a &ldquo;multi-channel&rdquo; industry. Beginning with a broad overview of fashion retailing, this book then focuses on on-site environments, management and control functions, merchandising fashion products, communicating with clientele, and finally ends with a useful appendix about careers in fashion. An excellent handbook for retail executives and managers in the field.</P>
