Now in a paperback edition comes Twin Visions, the latest portfolio collection by celebrated husband-and-wife fantasy art team Boris Vallejo and Julie Bell. This unique collection of over 120 fantasy paintings takes us into a magical universe, otherwise

visited only in our dreams. In this sumptuous anthology, new fans of Boris and Julie will discover the beauty and sheer wonder of their paintings, while seasoned ones will find much to surprise and delight them. Charged with drama and eroticism, Boris and Julie have created enchanting visions of loveliness and terrifying nightmares side by side, beauty and the beast inhabiting realms of limitless possibility. This edition includes provocative paintings that were originally created for calendars and other commissions, as well as a selection of pictures from earlier in their careers that have never been featured in their books.
