Ops Opis is the fourth publication by Nazraeli Press on the botanical still life studies of Ron van Dongen. Like his first three books, Ops Opis confirms van Dongen's position as the most innovative and exciting artist working in the genre today. This large format book - 14 x 17 inches - contains thirty-three duotone plates printed on matt art paper, hand-bound in green cloth with a tipped-in cover plate. This deluxe special edition is limited to 25 copies with an original 11x14" gelatin silver print photograph (shown here), numbered and signed by the artist and presented in a cloth-bound clamshell box. Signed by Ron van Dongen. \$1,000.00
