装帧:Paperback

isbn:9781590478448

This book provides an introduction to application development using SAS/AF and FRAME entries. Geared to the SAS/AF beginner, the instruction and examples can be

used with SAS 8.1 through SAS®9. In just a few steps, you'll develop a graphical user interface and a multiple-window application. This primer is an ideal starting point for becoming a FRAME entry expert.
