In this stylish novel, M.F.K. Fisher follows the course of Jennie, a willful, wandering woman, a lovely enchantress calculating the havoc caused by her life of danger and license.

Not Now but Now is Fisher's only novel. In it she traces the subtleties and nuances of a woman's mind. Controlled neither by others nor by time, Jennie moves through separate eras and beautifully drawn settings in San Francisco, Chicago, Lausanne, and Paris. rEVIEW: "Fisher depicts with startlingly sharp strokes the discrepancy between the inner and outer Jennie, creating a remarkable character that illuminates Fisher's evident skill at fiction writing." (Publishers Weekly).

REVIEW; "Her eye is so acute and her voice is so true, she invariably bewitches us." (Newsweek).
