Book Description

A best-seller for more than forty years, this is the survey of English literature from the Middle Ages to the twenty-first century. With 274 authors, the Eighth Edition deepens its representation of essential works in all genres, ranging from Seamus Heaney's translation of "Beowulf" to global twentieth-century classics. Over 75 colour plates and thematic clusters of brief and historically significant texts bring to life the cultural concerns of each period. Concise glosses and annotations, period introductions, biographical headnotes, timelines and selected bibliographies help readers understand and enjoy the rich diversity of English literature.

Publisher Comments :

Read by millions of students over seven editions, The Norton Anthology of English Literature remains the most trusted undergraduate survey of English literature available and one of the most successful college texts ever published. Firmly grounded by the hallmark strengths of all Norton Anthologies--thorough and helpful introductory matter, judicious annotation, complete texts wherever possible--The Norton Anthology of English Literature has been revitalized in this Eighth Edition through the collaboration between six new editors and six seasoned ones. Under the direction of Stephen Greenblatt, General Editor, the editors have reconsidered all aspects of the anthology to make it an even better teaching tool.
