## Book Description

Children get their first lesson in classification and realize that many things can share the same characteristics.

## From the Publisher

The Peek-A-Boo series was designed by child psychologist Fabien Savary to enhance child development in three ways: by broadening vocabulary, by developing fine motor skills, and by introducing children to new and stimulating concepts. Each book asks a number of very simple questions and, with Caillou, children peek under the flaps or pull the sturdy pull-tabs to find the answers and have fun while learning.
