Affairs, obsessions, ardors, fantasy, myth, legend and dream, fear, pity, and violence this magnificent collection of stories illuminates all corners of the human experience. Previously published in two volumes as "Collected Short Stories" and "The Last Word and Other Stories" these forty-nine stories reveal Graham Greene in a range of contrasting moods, sometimes cynical and witty, sometimes searching and philosophical. Each one confirms V. S. Pritchett's statement that Greene is a master of storytelling.
