A timeless topic with a fun, fresh face. For the pre-reader, I LOVE THE ALPHABET has proved to be a wonderful read aloud title, encouraging children to predict the stanza's end rhyme, delighting them with alliteration, and dazzling them with vibrant, colorful illustrations that have been compared to the work of beloved illustrators such as Eric Carle and Lois Ehlert. While alphabet books are typically targeted for the PreK-1 group, I LOVE THE ALPHABET has appeal for older age groups as well, as it highlights language arts topics such as alliteration and rhyme, and visual arts appeal for its usage of cut paper collage. I LOVE THE ALPHABET has a timely release, just in time for the

back to school book lists.
