著者:Bryan S. Turner

出版者:Routledge

出版时间:1993-12-08

装帧:Paperback

isbn:9780415103879

This authoritative book, written by one of the leading Weber scholars in the English-speaking world, examines Max Weber's contribution to the contemporary debate about modernity and postmodernity. Bryan Turner examines contemporary interpretations of Weber's relationship to Marx, Nietzsche and Simmel. Turner also demonstrates the significance of Weber's comparative and historical sociology to an understanding of the complexity of secular industrial societies. In addition, Turner explores the rationalization theme in Weber's sociology by examining scientific rationality, religious change, political metaphors and the discipline of the body.

The book provides a guide to the current issues in social theory, religion, rationalization, the body, modernization and capitalism. It will be essential reading for anyone interested in Weber's claim that the aim of sociology must be to explain what is distinctive about the times in which we live.</P>

评论

Turner
的解读还是很深刻的，感觉韦伯说的基于对“合法性”信仰之上的合法性其实很后现代，貌似法学界很多引用韦伯的法律社会学都是在规范意义上说的，还评价韦伯的局限之类，简直不知深浅。。。
