From the hills of Hollywood to the lagoons of the Caribbean, from European jacuzzis to Asian tidal pools, from the Australian outback to America's Eastern seaboard, here are 45 of the world's most spectacular swimming pools and gardens.

Published in an oversized format to best showcase more than 400 stunning color photographs, Dream Pools & Gardens features nature-inspired shapes, classical designs, and modern pools where the water appears to tumble off the end of the earth.

An engaging text details the basic design form of each project, highlighting their innovative features and imaginative details, including the surrounding gardens and landscaping, which are often as glorious as the pool itself.

Perfect for homeowners searching for design ideas and interior designers looking for fresh inspiration, Dream Pools & Gardens is both a useful tool and a gorgeous wish book.
