colors, this picture book features the latest in 3-D technology, allowing the gargantuan Godzilla to leap right off the page. Godzilla fans are in for a treat as they watch him battle Ghidorah, a three-headed dragon from outer space. No place in America is safe from this space monster. Godzilla must trek all across America--from the Golden Gate Bridge to Mount Rushmore to a quick shower under Niagara Falls--in search of the demolition dragon. Finally, they meet up in a mega-monster showdown set in New York City's concrete canyons.
