著者:Adam Smith

出版者:Penguin Classics

出版时间:1999-10-7

装帧:Paperback

isbn:9780140436150

It is in Books IV and V of *The Wealth of Nations* that Adam Smith offers his considered response to the French Physiocrats, perhaps the first great school of economic theorists, and assesses the nature of the mercantile system, particularly the colonial relationship with America, whose achievements could have been even more spectacular if conditions of free trade and economic union had existed. Even on the eve of the Declaration of Independence, Smith famously predicted that America "will be one of the foremost nations of the world." It is also here that he develops the case for a limited state role in economic planning, notably to combat market failure and induce efficiency in areas such as education, public works, justice, and defense. His pioneering analysis still provides many subtle and penetrating insights into one of today's most vital and controversial policy debates.

Edited with an Introduction and Notes by Andrew Skinner

亚当斯密真的是现代资本主义文明中一位伟大导师，但更重要的是他的逻辑，思想的深邃和知识的广泛令人折服。我先读了他的《道德情操论》，一本令人起敬的著作，如今伟大的《国富论》也如此，200多年过去了，它的思想依然熠熠生辉。
