Finally, a truly up-to-date book about the world's most successful CEOs!

This is the biographical motivational book of record of e-business success stories. It's about a remarkable group of billionaire achievers who have turned the existing power structure inside out, paving the way for the e-commerce Internet revolution.

Best CEOs is a terrific read for anyone looking to become rich and successful. In this edition, award-winning author Ian Halperin interviewed more than 150 people to take you inside the minds of the richest CEOs in the world. By reading about the struggles

and successes of CEOs like Steve Jobs of Apple and Timothy Koogole of Yahoo, what you get is a no-nonsense guide to launching and maintaining a business on the Internet. This book will go a long way towards answering many of the questions one might have about how to succeed not only in today's new Internet economy, but in any business!
