A frantic race to save a long-lost Traveler.

An epic battle for freedom.

Two brothers whose power puts them on a collision course . . .with each other.

In *The Traveler*, John Twelve Hawks introduced readers to a dangerous world inspired by the modern technology that monitors our lives. Under constant surveillance of the “Vast Machine,” a sophisticated computer network run by a ruthless group, society is mostly unaware of its own imprisonment. Gabriel and Michael Corrigan, brothers who were raised “off the grid,” have recently learned they are Travelers like their long-lost father—part of a centuries-old line of prophets able to journey to different realms of consciousness and enlighten the world to resist being controlled. But power affects the brothers differently. As *The Traveler* ends, Gabriel hesitates under the weight of responsibility. Michael seizes the opportunity—and joins the enemy.

*THE DARK RIVER* opens in New York City with a stunning piece of news. Gabriel’s father, who has been missing for nearly twenty years, may still be alive and trapped somewhere in Europe. Gabriel and his Harlequin protector, Maya, immediately mobilize to escape New York and find the long-lost Traveler. Simultaneously, Michael orders the Brethren—the ruthless group that has been hunting Gabriel—into a full-scale search. Gabriel yearns to find his father to protect him; Michael aims to destroy the man whose existence threatens his newfound power. The race moves from the underground tunnels of New York and London to ruins hidden beneath Rome and Berlin, to a remote region of Africa that is rumored to harbor one of history’s greatest treasures. And as the story moves toward its chilling conclusion, Maya must decide if she will trade everything to rescue Gabriel.

A mesmerizing return to the places and people so richly portrayed in *The Traveler*, *THE DARK RIVER* is propelled by edge-of-the-seat suspense and haunted by a vision of a world where both hope and freedom are about to disappear.
