We're not in Kansas anymore, Toto. Judge Judy Hall has identified one of the biggest challenges we face in our families and society today - stepparenting. When Elephants Fight attacks the notion that stepparenting is only about the stepparent. Judge Hall identifies honestly the emotional strains on the stepparent while offering practical solutions with a dose of humor. Study guides are included, which ask the reader to evaluate their own circumstances. Experiencing When Elephants Fight will enable you to make more informed decisions and empower you to better meet the challenges of stepparenting.
