著者:Judy Hall

出版者:Findhorn Press

出版时间:1997-01-01

装帧:Paperback

isbn:9781899171859

Designed for beginners and experienced astrologers alike, The Zodiac Pack is a totally new approach to astrology. It's not a Tarot deck, it's not a method of divination... It is a unique way of understanding yourself and others! It allows a right-brain (intuitive) approach to astrology where the pictures on the cards, with images interacting with each other, will bring to heart and mind a sense of who you are, and of yourself in relationship to others.

Anyone can use, and understand, this pack. No prior knowledge of astrology is required. A computer generated chart is offered to every purchaser who needs it, so there are no complex calculations or tables to consult. Individually the cards can be used as a basis for meditation, or laid out collectively to form a powerful visual image of the astrological chart. Astrologers can utilise this unique form of astrological communication to initiate intuitive insights for their clients.

The accompanying book *Astrological Images* is a guide to using the cards to deepen your knowledge of astrology, no matter what your level of experience may be. It has detailed perceptive chapters of the signs, planets, houses, angles and elements. If you are an experienced astrologer, it will also give you fresh knowledge together with a

unique tool to expand your chart readings into a different dimension of astrology.

The Zodiac Pack--astrology for the Aquarian Age.
