What has Germany made of its Nazi past? This book explores the legacy of the Nazi regime, exposing the workings of past beliefs and political interests and how differently the two Germanys have recalled the crimes of Nazism, from the anti-Nazi emigration of the 1930s through the establishment of a day of remembrance for the victims of National Socialism in 1996. The author asks why would German politicians raise the spectre of the Holocaust at all, in view of the considerable depth of support its instigators and their agenda had found in Nazi Germany. Why did the public memory of Nazi anti-Jewish persecution and the Holocaust emerge, if selectively, in West Germany, yet was repressed and marginalized in "anti-fascist" East Germany? The book aims to answer this question and more, revealing the relationship between how the crimes of Nazism were publicly recalled and how East and West Germany separately evolved a Communist dictatorship and a liberal democracy. The author uses private and public papers and statements of key German figures to explore the subject and to place it within its historical context and the ideologies and experiences of pre-1945 German and European history to the Cold War.

评论

确切而言，今日德国对犹太/以色列的态度和做法沿自联邦德国，民主德国自然要和苏联老大哥保持一致咯——DDR说纳粹搞屠杀那一套基于“阶级”而非“种族”，你猜应许之地人民答不答应？
