出版时间:2005-11-18

装帧:Hardcover

isbn:9781841842189

The field of intensive care in nephrology is a rapidly evolving one, with research beginning to translate into clinical guidelines and standards. This comprehensive text

includes all pertinent topics related to ICU nephrology, including shock, respiratory failure, syndromes, pharmacology, various types of renal replacement therapies, toxicology, fluid management, potassium homeostasis, and more. It also covers detailed pediatric ICU nephrology issues, as well as nutrition, end-stage ICU care, and acid-based disorders. This is the first text to unite experts from the various specialties involved, providing an authoritative and practical reference.</P>
