著者:Ted Robert Gurr

出版者:Princeton University Press

出版时间:1971-09-30

装帧:Paperback

isbn:9780691021676

Why Men Rebel was first published in 1970 after a decade of political violence across the world. Forty years later, serious conflicts continue in Africa, Asia and the Middle East. Ted Robert Gurr reintroduces us to his landmark work, putting it in context with the research it influenced as well as world events. Why Men Rebel remains highly relevant to today's violent and unstable world with its holistic, people-based understanding of the causes of political protest and rebellion. With its close eye on the politics of group identity, this book provides new insight into contemporary security challenges.

评论

Could there be anything more boring than political psychology?

Relative Deprivation theory

第一次见社会学模型

rising expectation

20150515.RD.挺好的一本书，概念很清楚，讲得也很有逻辑。

really boring (sad)

relative deprivation

“A decade later, scholars looked back and realized this may be the largest waste of resources and talents in studies of social movements” —Ekiert [Still, hats off to this originality]
