著者:Robert Frank

出版者:Scalo Publishers

出版时间:2001-06-15

装帧:Hardcover

isbn:9783908247401

Robert Frank not only ranks among the most important of living photographers but is also widely recognized as a seminal figure in the development of experimental cinema. And yet, the continuity and consistency of his work in both photography and film has

been barely explored. "Hold still-keep going" fills this obvious void by illustrating and analyzing the underlying aesthetics that have guided Frank's work in both media. From the very outset of his career, Frank distrusted the single photographic image and its claim to freeze moments of truth: time and again he gravitated to the moving image and serial photography, be it in book form or as a panel of photographs. Reproducing more than 100 collages, film stills and serial works, this volume will certainly become a new standard publication on Robert Frank, innovative photographer and experimental filmmaker. The book also contains an illustrated bibliography and biography featuring dozens of previously unpublished images of Robert Frank, his family and his friends. Published in conjunction with a major traveling exhibition, this is an essential addition to all photography and film collections. 8.25 x 10.75 inches, 102 duotone illustrations.

## 评论

过去把胶片全都摊开摆出来再挑选，这个process真的过于浪漫。

---

讲故事。

---

还不错

---

电子书

---

"he must be a communist - he looks like one / why don't you go the other side of town and watch the niggers play" hahahahaha I feel better now :D

---

公園組圖簡直就是Park Bench的現實版呀！

---

电影手法

---

keep going

---

简读

-----  
中间有几张连续的，可以看出一点弗兰克拍照的习惯。这本感觉还挺叛逆的

-----  
人都说老罗这辈子就出了4本半画册，这就算那半本

-----  
Nova Scotia的记忆

-----  
好爱，给了我新启发

-----  
我非常喜欢，浪漫
